DOB: 14/07/2001

Blood Group: B+

Age: 21 Years

Nationality: Indian

## Objective

As a web developer with close to 1 year of experience, my objective is to utilize my skills in Html, Css, and Javascript to design and implement user-friendly, responsive websites for clients across diverse industries. Additionally, I aim to leverage my expertise in front-end frameworks, specifically **ReactJs**, **jQuery**, and my proficiency in working with content management systems, including Wordpress, to create a separate theme from scratch.

## Technical Skills

- **Frontend Development:** React.js, JavaScript, React Hooks, React Router, jQuery, HTML, CSS, Bootstrap
- **State Management:** Redux
- **API Handling:** Fetching data and integrating APIs
- **Responsive Design:** Proficient in creating mobile-friendly websites
- **CMS Platforms:** Experienced in WordPress customization
- **Version Control:** Familiar with Git and GitHub

## Work Experience

Web Developer | Datashaft Technologies | Chennai, Tamil Nadu | July 2022 - Present

### Dynamic Website Creation:

- Created dynamic corporate sites for PalC Networks and Kumaran Technologies, integrating forms, sliders, animations, and popups using jQuery, JavaScript, and ReactJS.

### User-Friendly Real Estate App:

- Developed a ReactJS-based real estate app showcasing property images, prices, and inquiries via email.

### Project Management & Task App:

- Crafted the GNS Admin, a dedicated app for project assignment and management, featuring stakeholder notifications for overdue projects.

### Subscription-Based Websites:

- Empowered users to pick monthly/yearly plans for design packs, boosting sales and engagement.

### E-Commerce Development:

- Built "Boutique Bougainvillea" store with features like add-to-cart, pop-ups, user login, and wishlist using ReactJS.

### Effective Client Handling:

- Proficiently collaborated, delivering technically advanced, user-friendly projects while ensuring stakeholder clarity.

### Enhanced Functionality with APIs:

- Integrated APIs to enhance web app capabilities and user experience.

### Web Maintenance & Landing Pages:

- Developed landing pages for "Hofstede Insights" and "EAP Cecure US," incorporating interactive ReactJS-based psychiatry Q&A.

### Collaborative Web Development:

- Collaborated seamlessly with designers, backend devs, and clients to deliver exceptional websites aligned with goals.

## Projects & Portfolio

- Web Application

### Gns

Project Assigning Application that streamlines task allocation and project management. Facilitated seamless creation of projects, task assignment to team members, and real-time tracking of progress.

- Web Application

### Real Estate Listing and Referral App

Showcased extensive land and house listings with images and pricing. Empowered clients to receive notifications when users express interest by clicking the "Interested" button on specific properties. Integrated a referral program, rewarding users for successful referrals resulting in property purchases.
